INT. PARADOX'S LAB - NIGHT

Moments after the end of Episode #696-010, "Ultimate Aggregor." Aggregor is triumphant. Humongousaur is outraged.

2 HUMONGOUSAUR  
You killed them!

3 AGGREGOR  
I absorbed them. All their power is  
mine!

Humongousaur drops his head and rushes Aggregor, catching him by surprise--

4 HUMONGOUSAUR  
<Attack EFFORT>

5 AGGREGATOR  
<impact>

--and driving both of them through the Laboratory wall.

EXT. PARADOX'S LAB - NIGHT

Looking up at the building's top floor as Humongousaur tackles Aggregor through the wall, they begin to fall towards the ground in a shower of debris.

Enraged, Humongousaur punches Aggregor several times as they both fall.

6 HUMONGOUSAUR  
<efforts>

7 AGGREGOR  
<impacts>

They land on a JEEP, parked on the street, flattening it, and creating a crater around the wreck.

8 AGGREGOR  
<Impact>

9 HUMONGOUSAUR  
<impact>

Humongousaur is first to his feet, he picks up another Jeep and SMASHES it down on Aggregor.

10 HUMONGOUSAUR  
<effort>

11 AGGREGOR  
<impact>

With one hand, Humongousaur lifts Aggregor out of the wreckage and PUNCHES him. He goes flying.

12 HUMONGOUSAUR  
<Lift> <Punch>

EXT. LOS SOLEDAD - NIGHT

Aggregor is launched through the air for a block, his body smashing through several more jeeps, a telephone pole and the corner of a building before stopping.

13 AGGREGOR  
<impacts>

Aggregor tries to climb to his feet, but Humongousaur is already there. He sinks his fingers into the base of the already damaged building, and PRESSES THE ENTIRE THING over his head. This is a big Jack Kirby shot.

14 HUMONGOUSAUR  
<effort>

Humongousaur smashes the ENTIRE BUILDING down on top of Aggregor. The sound is deafening.

15 HUMONGOUSAUR  
<effort>

All is still, Humongousaur stands next to the huge pile of deris, breathing hard.

16 HUMONGOUSAUR  
<catches breath>

We hear a low moaning from somewhere within the wreckage.

17 AGGREGOR  
<moans>

The sound enrages Humongousaur.

18 HUMONGOUSAUR  
You want some more?

Humongousaur stars digging through the rubble.

19 HUMONGOUSAUR  
<digging efforts>

Humongousaur uncovers Aggregor.

20 AGGREGOR  
<moans>

Humongousaur draws back his fist for another punch to his helpless opponent, but Gwen's ENERGY TENTACLE WRAPS around his wrist, stopping him.

21 GWEN (O.S.)  
Ben, stop!

22 HUMONGOUSAUR  
(enraged)  
Let go of me!

Humongousaur turns to see Gwen (who is binding his wrist), Max, and Kevin, running up to him.

23 KEVIN  
He's down, lay off of him.

24 AGGREGOR  
<moan>

Humongousaur calms down.

25                    HUMONGOUSAUR  
Sorry. It's just... what he did. I  
lost my--

26                    AGGREGOR  
<moans turn to low laughter>

Aggregor is LAUGHING. Aggregor RISES from the debris.

27                    AGGREGOR  
Is that the best you can do?  
Because I didn't feel a thing.

Aggregor backhands Humongousaur through the air.

28                    HUMONGOUSAUR  
<Impact>

Humongousaur CRASHES into the base of a building and it  
COLLAPSES on him.

29                    HUMONGOUSAUR  
<2 impacts>

Aggregor boasts.

30                    AGGREGOR  
I'm as invulnerable as Bivalvan's  
armor. Tennyson can't hurt me.  
Nothing can!

Gwen suddenly attacks from his blind side.

31                    GWEN  
*Eradico!*

Aggregor is all but lost in Gwen's powerful and continuous  
stream of Energy.

32                    GWEN  
<sustained effort>

But when she finishes, he stands there untouched.

33                    AGGREGOR  
Did you know Galagpagus' people  
can't be harmed by Manna?

Aggregor's eyes GLOW. He blasts Gwen with P'Andor's EYE  
BEAMS.

Gwen quickly puts up a SHIELD that blocks the blast, but the shield is SHATTERED, and she's out for the count.

34 GWEN  
<effort, impact>

35 KEVIN  
Gwen!

Max kneels and takes Gwen's pulse.

36 GWEN  
<keep alive>

37 MAX  
She's okay. Which is more than I  
can say for Aggregor!

Max drops her wrist and pulls his energy pistol, firing several shots at Aggregor. The shots bounce off, driving him back slightly, but otherwise leaving him unharmed.

Kevin freaks and races in for the attack, morphing his hands into weapons as he runs.

38 KEVIN  
<attack>

Kevin only manages a few steps before Aggregor ELECTROCUTES him and Max with RA'AD'S POWERS.

38a KEVIN  
<electrocuted>

39 MAX  
<electrocuted>

Max is sent flying, bouncing painfully across the pavement.

40 MAX  
<impacts>

Kevin writhes as he struggles against the current.

41 KEVIN  
<pained struggles>

Kevin stubbornly takes several more painful steps before succumbing, falling face first at Aggregor's feet.

42 KEVIN  
<faint>

## ON THE COLLAPSED BUILDING

Humongousaur EXPLODES out of it.

43 HUMONGOUSAUR  
Aggregor!

SLOW MOTION, if we can: Humongousaur runs at Aggregor like a runaway train, and winds up to throw a big punch, but Aggregor's faster.

44 AGGREGOR  
<effort>

Aggregor unleashes Andreas' JACKHAMMER PUNCH, landing it on Humongousaur's chin.

45 HUMONGOUSAUR  
<impact>

Humongousaur SPINS at the point of impact and GOES DOWN, knocked out with one punch. He's hit so hard that he REVERTS back to Ben, who is out cold.

45a HUMONGOUSAUR  
<groan>

46 BEN  
<keep alive>

As we show the wreckage of the fight, and our heroes unconscious on the ground, we...

FADE TO BLACK:

THE SAME LOCATION - SOMETIME LATER

Ben's POV, everything's black .

47 AZMUTH (O.S.)  
Wake up, Ben Tennyson.

Ben OPENS HIS EYES and squints at Azmuth.

48 BEN (O.S.)  
<moan> Azmuth?

New angle. Ben gets up quickly, warily looking around for Aggregor. As he does, we see the other heroes also climbing to their feet. Notee That Max is slow and weak. Don't spend a lot of time on him, though. We only see it in passing.

49 MAX  
<Moan>

Ben looks around, nervously. He raises his hand, about to activate the Ultimatrix.

50 BEN  
Where's--

51 AZMUTH  
Aggregor is long gone. His eventual goal is why I am he--

Ben drops his hand without activating the Ultimatrix. Azmuth glances at it and sneers.

52 AZMUTH  
Let me see that.

A distracted Azmuth runs his hands over the Ultimatrix. He's less than impressed.

53 AZMUTH  
Pathetic workmanship. And an evolutionary function? Begging for trouble.

54 GWEN  
(leading)  
You never show up unless something important is happening.

55 AZMUTH  
Hmmm? Yes. We find ourselves in a situation so dire, that perhaps I should risk giving Ben my new Omnitrix-

Ben interrupts, holding out his upturned palms greedily.

56 BEN  
New Omnitrix!? Gimme, I'll kick Aggregor's butt.

57 AZMUTH  
No, it's not completely ready, and clearly, neither are you.

Ben drops his hands and head, pouting.

58 BEN  
Not yet?

59 AZMUTH  
At the rate you're regressing, likely not ever.

60 KEVIN

Burn.

61 GWEN

Not now, Kevin.

62 KEVIN

C'mon, that was classic.

(imitating Azmuth's voice)

"Likely not ever."

(normal voice)

Ha!

Ben is talking to Azmuth.

63 BEN

I've wanted the chance to apologize to you for months, but right now I've gotta stop Aggregor. If you're not here to help, we'll catch up later.

Max, leaning against something for support, interjects.

64 MAX

Wait, Ben. Hear him out.

65 AZMUTH

Your lack of patience is foremost among your many weaknesses. I have crucial information for you.

Ben's not listening, he's talking to Kevin and Gwen.

66 BEN

Aggregor's got to be looking for a ship to replace his busted one.

67 KEVIN

Best way to get one is to hit some Forever Knights bases.

68 GWEN

What about old Plumber headquarters? Some of them have mothballed starships.

69 AZMUTH (O.S.)

(shouting)

Listen to me!

All turn to see Azmuth, who is enraged.

70

AZMUTH

Aggregor won't be looking for a  
ship! With his new powers, he  
doesn't need one!

71

BEN

(dejected)

Then we'll never find him.

On Azmuth, grim.

72

AZMUTH

If you listen, you will. I know  
where he's going. And if we don't  
stop him, the entire universe will  
tremble at his might.

FADE OUT

END OF ACT ONE

ACT TWO

FADE IN:

EXT. GALVAN PRIME - DAY

Establishing the rebuilt Planet Galvan, a glittering jewel in space.

EXT. AZMUTH'S TOWER - DAY

Establishing Azmuth's Tower, good as new. (REUSE from "War of the Worlds, Part 1").

INT. AZMUTH'S LAB - NIGHT

Azmuth, Ben, Gwen, Kevin and Max APPEAR in a FLASH of TELEPORTER LIGHT (identical to the one Galvan appeared in).

73                   AZMUTH  
                  Welcome to Galvan Mark II.

74                   GWEN  
                  You rebuilt your entire planet?

Azmuth walks towards the MAIN WINDOW/MAIN SCREEN (see last season's #019, "The Final Battle").

75                   AZMUTH  
                  Of course we did. It was damaged  
                  from the war. Stop wasting time  
                  with trivialities.

Azmuth ACTIVATES THE MAIN SCREEN. The view outside fades, replaced by an image of a GLOWING MOBIUS STRIP, twisted into an Infinity Symbol (∞).

76                   BEN  
                  Cool screen-saver.

77                   AZMUTH  
                  It is not a "screen-saver." It is  
                  the single most important item in  
                  the universe.

78                   BEN  
                  Oh.  
                  (beat)  
                  What's it do?

79 AZMUTH  
It is the Map of Infinity.

80 KEVIN  
(scoffing)  
C'mon, that's just a legend.

81 AZMUTH  
No. It is as real as you and I.

Max is leaning against a console. He's toughing it out, but he doesn't look so good.

82 MAX  
A complete map of space-time?

83 AZMUTH  
Extending through 17 dimensions.  
With it, one could travel anywhere.

The screen changes, showing PROFESSOR PARADOX, a grim expression on his face, reaching for the Map.

84 AZMUTH  
So valuable is this map that Professor Paradox himself divided it into four pieces, and hid them throughout the galaxy.

As Azmuth explains, Paradox vanishes, the Map divides itself into quarters, then each piece vanishes. By the time the sentence ends, the screen is black. Azmuth continues.

85 AZMUTH  
This was Aggregor's plan from the beginning. He kidnapped those creatures for the powers they possess, powers that will allow him to survive the arduous quest for all of the pieces of the map.

86 GWEN  
I don't see why it's so important that he doesn't get a map.

87 AZMUTH  
It's more than just a map, it--

Max, leaning against the wall and looking pained, answers.

88 MAX  
It's not the map, Gwen. It's where he intends to go with it.

Max looks at Azmuth.

89

MAX

I'm right, aren't I? He's going to go to the Forge of Creation.

Gwen goes over to Max.

90

GWEN

You look terrible, Grandpa.

She feels his forehead.

91

GWEN

You've got a fever.

92

MAX

Not now, Gwen. I'm fine.

93

AZMUTH

You are not fine.

The screen shows an OUTLINE OF MAX'S BODY, with red dots superimposed, they are everywhere.

94

AZMUTH

Aggregor's electrical attack has damaged your entire nervous system.

Several other Galvan scientists enter with a big STASIS TUBE full of liquid (it should evoke Vilgax's old recovery tube).

95

AZMUTH

My assistants will replace your damaged central nervous system with a new one. A few weeks in a re-gen tank should do it.

96

MAX

After the mission, maybe.

97

BEN

(arguing with Max)  
Grandpa!

98

AZMUTH

You won't survive that long. Not without treatment.

Azmuth is uncharacteristically kind.

99

AZMUTH

You have given much to the Galaxy,  
Max Tennyson. Now you must rest and  
recover.

100

MAX

I still think--

Ben stands glowering at him, arms folded defiantly. Gwen and Kevin are behind him, doing the same thing.

101

BEN

Do what he says, Grandpa.

Max accepts the inevitable.

102

MAX

You kids be careful.

103

BEN

Just like you taught us.

Max smiles.

104

MAX

Maybe a little more careful than  
that.

Max walks off with the Galvans. Azmuth turns back to the DISPLAY. The four pieces of the Map REAPPEAR and join together again.

105

AZMUTH

If Aggregor can reassemble the map,  
he can travel to the Forge of  
Creation, and gain the greatest  
power in the Universe.

106

KEVIN

Where's Paradox, why doesn't he  
help?

107

AZMUTH

He already has. He erected a  
Chronal Randomization Barrier that  
hides the Forge of Creation from  
everyone except the Forge's  
inhabitants --and whoever has the  
Map.

108

BEN

Got it. We only have to stop  
Aggregor one time out of four, and  
he's done.

109

AZMUTH

Yes, but you must succeed. That much power in Aggregor's hands would be a disaster of intergalactic proportions.

110

BEN

Then we should get going.

CUT TO:

EXT. RUSTBUCKET III - SPACE

Establish the Rustbucket II, flying through space.

INT. RUSTBUCKET III COCKPIT - NIGHT

Kevin's at the controls. Gwen is at a console, she's giving them the mission status.

111

KEVIN

On course to the Monceros system.

112

BEN

Where are we going again?

113

GWEN

(reading)

An ancient temple on the planet Mikd'lty. Oh, this is weird...

114

KEVIN

What?

115

GWEN

It's really close to the sun, and tidally locked--

Ben has no idea what she's talking about.

116

BEN

How about that!

Gwen gives him a look before continuing.

117

GWEN

--Which means the same side of the planet is always facing the sun.

118

BEN

Yeah. Completely not getting it.

119

GWEN

Sunside, the ground is molten and the temperature's 3,600 degrees.--

EXT. MIKD'LTY - SPACE

The Rustbucket III is approaching the bizarre world. It's beautiful; half-flaming ball of gas, half-ice planet. The Sun is HUGE and dominates the sky.

120

GWEN (O.S.)

--On the night side, it's a little cooler, 320 below zero.

INT. RUSTBUCKET III COCKPIT - NIGHT

Kevin is looking at the screen. They're so close to the sun that its blinding light floods the cockpit. Kevin shades his eyes. Kevin, Gwen and Ben are already dressed in their PLUMBER SUITS.

121

KEVIN

This ain't gonna work. Our spacesuits'll fail instantly on the hot side of the planet, and they're only good for maybe an hour on the cold side.

Ben puts on his helmet and looks back at his Butt.

122

GWEN

What are you looking at?

123

BEN

This is a Plumber's Suit, right? I was just making sure my buttcrack wasn't showing.

CUT TO:

EXT. MIKD'LTY TWILIGHT ZONE - TWILIGHT

Dressed in their Plumber Suits, Ben Gwen, and Kevin walk through the Twilight Zone, a two hundred-foot strip between the hot and cold sides. To their right, a wall of flames, to the left, a wasteland of ice and snow. DON'T FORGET, ON THIS PLANET ALL LIGHT COMES FROM ONE DIRECTION: SUNSIDE. It should look pretty freaky. Kevin's impressed.

124 GWEN  
(filtered)  
Welcome to the twilight zone.

125 BEN  
(filtered)  
We're right between the hot and  
cold sides?

126 GWEN  
This planet is inhabited by alien  
colonists, keepers of an ancient  
temple they discovered here  
thousands of years ago. That  
temple...

As she speaks, they walk to the top of a rise, giving them a view of the ANCIENT TEMPLE.

EXT. KELVIN TEMPLE - TWILIGHT

Establishing the temple.

127 KEVIN  
(filtered)  
But the atmosphere's either frozen  
into liquid, or on fire. Who could  
live here?

Gwen smiles.

128 GWEN  
The colonists find it quite  
comfortable.

CLOSER ON THE TEMPLE DOORS

We can see the locals, NECROFRIGGIANS like Big Chill, but they're all in WHITE (like priest's robes).

129 BEN  
Necrofriggians! The same race as  
Big Chill.

130 GWEN  
So they aren't bothered by the heat  
or the cold.

131 BEN  
Or hopefully, us.

Kevin takes the lead.

132 KEVIN  
Let me talk to them.

Ben grabs Kevin's arm.

133 BEN  
Maybe you should leave the  
diplomacy to Gwen.

134 KEVIN  
I'm better at it than you are.

135 BEN  
Lot of room between that and  
"good.".

136 KEVIN  
(Conceding)  
Yeah. Gwen?

He makes an "after you" sweep with his arm, letting her walk first. White Necrofiggian #1 glowers down on her from a great height.

137 WHITE NECROFRIGGIAN #1  
Who approaches the sacred Temple?

138 GWEN  
Uh, Hi. I'm Gwen Tennyson, this is  
my cousin Ben--

Ben waves.

139 BEN  
Hey.

140 GWEN  
--and my friend Kevin.

141 KEVIN  
'Sup.

Gwen quickly glowers at Kevin, then turns back to White Necrofriggin #1, showing him her PLUMBER'S BADGE.

142 GWEN  
We're Plumbers, and we need to go  
inside the Temple.

143 WHITE NECROFRIGGIAN #1  
This is unprecedeted. Strangers  
are not allowed in this place. Only  
pilgrims who seek wisdom.

144

BEN

Me and my friends are totally okay,  
See...?

Ben TRANSFORMS into BIG CHILL.

145

BIG CHILL

Big Chill!

146

GWEN

Ben? When you turn back to human,  
you'll still be in your protective  
suit, right?

147

BIG CHILL

That's how it used to work. Before  
it... broke.

148

GWEN

If it doesn't, you've only got 10  
minutes.

149

KEVIN

(helpfully)

Less if you turn into something  
else first.

150

BIG CHILL

Right.

White Necrofriggian #1 is very curious about Big Chill.

151

WHITE NECROFRIGGIAN #1

You are one of us?

152

BIG CHILL

I'm one of everybody. We're just  
going to pop inside, and grab the  
artifact. We'll be out in no ti--

153

WHITE NECROFRIGGIAN #1

"Grab one of the artifacts"?

Sacrilege!

All of the White Necrofriggians UNFURL THEIR WINGS.

154

NECROFRIGGIANS

<Hisss>

155

KEVIN

Is there any way that sacrilege  
means, "go right ahead"?

156 GWEN

No.

157 KEVIN

That's too bad.

An intangible Necrofriggian fires COLD BREATH at the kids. Gwen blocks it with an ENERGY SHIELD.

157a WHITE NECROFRIGGIAN #2  
<Freezing breath>

157b GWEN

### <Effort>

158 KEVIN

I can't use my powers unless I take off my suit.

159 BIG CHILD

Bad idea. Let us handle it!

Big Chill flies into the attacking White Necro and tackles him.

160 BIG CHILL

## <impact>

161                   WHITE NECROFRIGGIAN #2  
      <impact>

162 BIG CHILL

Intangible cancels intangible.

Gwen throws energy disks at an approaching Necrofriggian, but they pass right through him.

163 GWEN

### <efforts>

Kevin runs dodging from another Necrofriggian who is shooting ICICLES at him like machine gun-fire.

164 KEVIN

Whoa! Whoa! Comin' through!

Kevin, backing away from the icicles, is forced nearly into the flame wall. He's trapped, and the strafing icicles are coming closer and closer.

## BIG CHILL

Is attacked from behind by two more Necrofrigians. All intangible, they can touch each other.

165 BIG CHILL  
<impacts> Hey! No Fair!

The weight of the attackers force him to the ground. He's taking a thumping.

## 166 BIG CHILL <impacts>

GWEN

Is blocking a frozen breath attack from a Necrofrigian, her ENERGY SHIELD is caked with THICK ICE. It's heavy!

167 GWEN  
<effort>

Gwen DROPS the shield and dives out of the way of the ice stream that hits the ground she just abandoned.

168 GWEN  
<effort>

She rolls to her feet and waves her hands as she casts a spell.

169 GWEN  
*Somnus!*

The spell hits the White Necrofriggian and it falls asleep instantly, dropping to the ground.

170 WHITE NECROFRIGGIAN #2  
<impact> <snores>

## BIG CHILL

Is still taking a thumping, he's frozen inside of thick ice. He can barely reach to he ACTIVATE the Ultimatrix and RAPIDLY TRANSFORM into ECHO ECHO--

171 ECHO ECHO  
Echo Echo!

--then ULTIMATE ECHO ECHO.

172                   ULTIMATE ECHO ECHO  
Ultimate Echo Echo!

Ultimate Echo Echo SOUND BLASTS his way out of the thick ice. He pulls three of his FLOATING AMPS off of his joints and throws them at the attacking Necrofrigians. They back away from them, trying to DODGE, but the hovering disks CHANGE DIRECTION to FOLLOW them.

When the disks reach the Necrofrigians, they release CONCENTRIC SOUND WAVES that RIPPLE through the Necrofriggians bodies. The Necrofrigians shudder, then FALL to the ground.

Kevin has a stick, and is trying to ward off a Necrofriggian that is forcing him step-by-step towards the wall of fire. Kevin raises his stick to strike the enclosing Necrofriggian. The stick then catches fire from the wall of fire that is surrounding Kevin. Kevin (comically) panics and shakes the stick to extinguish the fire.

173a <panic> KEVIN

Suddenly, one of Ultimate Echo Echo's FLOATING AMPS sails into the Necrofriggian's middle and ACTIVATES. It RIPPLES through his body, and he passes out, FALLING at Kevin's feet.

174 WHITE NECROFRIGGIAN #3  
<CRY, then KEEP ALIVE>

## RACK FOCUS

To reveal Ultimate Echo Echo just threw the disk.

175 KEVIN  
Thanks.

Kevin dumps his stick, and walks right THROUGH the fallen, intangible Necrofriggian.

## ULTIMATE ECHO ECHO, GWEN AND KEVIN

Enter the Temple Doors. A Necrofriggian starts to follow.  
White Necrofrigian #1 stops him.

INT. KELVIN TEMPLE - TWILIGHT

Ultimate Echo Echo leads the way. Gwen and Kevin are behind him. All are just outside of a LARGE CHAMBER (the interior of the Temple is a maze of chambers, all pretty much identical to one another until their trap is sprung).

179 KEVIN  
If you time out, you're cooked. Or  
frozen. I'm not sure which.

Gwen's eyes glow.

180 GWEN  
So we better hurry. This way.

She steps inside the chamber and her footfall TRIGGERS a BALANCE LOG TRAP (except the Log is a giant stone pillar) with a very loud <CLICK>.

A stone PILLAR swings down and SLAMS into the heroes, burying itself in the wall behind them. They are gone, smashed into the stone wall.

FADE OUT.

END OF ACT TWO

ACT THREE

FADE IN:

INT. NECROFRIGGIAN TEMPLE - MOMENTS LATER

On the stone pillar, one end embedded in the wall. A moment of silence and it begins to MOVE.

182 KEVIN (O.S.)  
<big EFFORT>

The huge pillar is thrown aside, revealing Kevin, coated with the stone the pillar is made of. His plumber suit is in shreds. Ultimate Echo Echo and Gwen are behind him.

183 ULTIMATE ECHO ECHO  
I didn't know you could armor up  
that fast.

184 KEVIN  
You know, with the proper  
incentive...

185 GWEN  
That stone's been on this planet  
for thousands of years. You should  
be safe from the elements.

186 KEVIN  
This place is probably full of  
booby traps. We'll have to be  
careful.

187 ULTIMATE ECHO ECHO  
If I'm lucky, I've got maybe five  
minutes left before I change back.

188 KEVIN  
No time to be careful. Let's just  
run through here like maniacs.

189 ULTIMATE ECHO ECHO  
Now you're talking sense.

190 GWEN  
Nothing scares me more than when  
you two agree.

Ultimate Echo Echo walks out of shot.

191 ULTIMATE ECHO ECHO  
Uh, huh. Talk while you're moving.

192

GWEN

Maybe you should follow me? I'm the one who can sense the map piece with her powers.

Ultimate Echo Echo reenters the shot and pushes Gwen.

193

ULTIMATE ECHO ECHO

Right. Magic up the thing. Whatever you call it.

194

GWEN

This way.

Eyes GLOWING, Gwen walks into a second chamber, followed by Ultimate Echo Echo and Kevin.

195

KEVIN

I was thinking. Instead of Ultimate Echo Echo, shouldn't your name be Ultimate Echo Ultimate Echo?

Kevin steps on a trigger with a loud <CLICK>.

196

KEVIN

Oops.

A trap door OPENS under their feet and they all fall except for Ultimate Echo Echo, who quickly HOVERS.

197

GWEN/KEVIN

<falls>

They fall toward the bubbling, PIT of frothing LIQUID far below. Instants before they hit it, Gwen surrounds them in an ENERGY BUBBLE. The Bubble SPLASHES into the liquid and SINKS.

198

ULTIMATE ECHO ECHO

No!

Not for long though. The Bubble bobs to the surface.

199

KEVIN

Ben, hurry up. This is totally acid!

200

GWEN

It's probably liquid Methane.

201

KEVIN

Which is also not good for swimming.

Ultimate Echo Echo flies down and pushes the bubble with a SOUND WAVE. Gwen and Kevin "walk" as Echo Echo rolls them towards the edge of the pit.

Finally, they're at the edge, and Gwen DISSOLVES the bubble.

202                   ULTIMATE ECHO ECHO  
Which way?

Gwen's eyes GLOW briefly and she points at a very dangerous-looking tunnel. Kevin peers into the darkness. Are those eyes?

203                   KEVIN  
Really? Cause I think there's something in there.

All react to the horrible <ROAR>

203a                  CERBERUS  
<2 Roars (one for each head)>

204                  KEVIN  
Yeah, see?

Ultimate Echo Echo walks in.

205                  ULTIMATE ECHO ECHO  
Let's go, I'm on a schedule.

INT. CERBERUS' TUNNEL - NIGHT

They enter the tunnel, lit by a floaring ENERGY GLOBE, courtesy of Gwen. The "Cerberus" is a Necrofrigian TWO HEADED LIZARD. Ultimate Echo Echo is impatient.

206                  ULTIMATE ECHO ECHO  
C'mon already. Let's see what you've got!

207                  CERBERUS  
<2 Roars (one for each head)>

Cerberus SHOOTS FIRE from one mouth and ICE from

208                  GWEN  
<effort>

the other. Gwen blocks the fire stream with an ENERGY SHIELD. Ultimate Echo Echo counters the stream of Ice with a SONIC SCREAM.

Kevin is amused.

209

KEVIN

Hey! Guess who's made out of stuff  
you can't hurt?

Kevin Hurls himself at the creature's firebreathing head, the creature's flames hit him but do not harm him. MORPHING his fist into a big mallet, Kevin BONKS him right on top of the head.

209a

KEVIN

<punching effort>

210

CERBERUS

<impact>

It's a knockout! The firebreathing head slumps, unconscious. Unfortunately, the other head is still awake, and it swivels to blast Kevin with ICE.

210a

CERBERUS

<i Faint>

211

KEVIN

<impact>

Iced-over Kevin is blasted away from the monster, Gwen CATCHES him with an ENERGY FIELD before he can hit the ground.

212

GWEN

<effort>

213

KEVIN

<impact>

Ultimate Echo Echo produced four AMP DISKS and throws them so they float surrounding the Cerberus.

214

ULTIMATE ECHO ECHO

Say goodnight.

ON THE DISKS

Repeating Ultimate Echo Echo's words again and again, turning them into SONIC WAVES that batter the Ice-breathing head.

215

ULTIMATE ECHO ECHO

(several passes)

Say goodnight.

216

CERBERUS (ONE HEAD)

<Impact ROARS>... <Faint>

Cerberus GOES DOWN.

GWEN

Is just finishing freeing Kevin from the ice.

217

KEVIN

Nice.

Gwen's eyes GLOW briefly.

218

GWEN

We're close. The Map is that way.

They walk past the fallen creature and out of the Tunnel into the light.

Ultimate Echo Echo steps on a TRIGGER. <CLICK>

219

ULTIMATE ECHO ECHO

Guess it was my turn.

From every direction the walls disgorge a machinegun-like fusillade of poison-tipped DARTS.

220

GWEN

<Effort>

Gwen blocks the incoming fire with an ENERGY BUBBLE.

221

GWEN

(shouting)

I got em, c'mon!

Protected by the shield, they cross the room to the next Vestibule. When they step out, the darts stop firing.

222

ULTIMATE ECHO ECHO

Did they finally run out of ammo?

223

GWEN

Our weight on the floor was the trigger.

Ultimate Echo Echo picks up a FALLEN PROJECTILE.

224

ULTIMATE ECHO ECHO

Nasty.

225

KEVIN

Careful, they probably got poison on them.

Ultimate Echo Echo drops the dart, like it's something dirty.

They consider the final barrier, a **HUGE STONE DOOR**, ten feet thick (it's more like a block of stone than a door).

226 GWEN  
It's behind this door.

Kevin puts his fingers underneath and tries to lift it.

227 KEVIN  
<effort>

But it doesn't move. Ultimate Echo Echo pitches in

They lift it up two feet, but that's all.

229 KEVIN  
(straining)  
We need more muscle.

He activates the Ultimatrix and TRANSFORMS into FOURARMS.

231 FOURARMS  
Fourarms!

Putting his back into it, Fourarms helps Kevin PRESS the huge stone over their heads.

232 FOURARMS/KEVIN  
<succeeding effort>

233 KEVIN  
(straining)  
Great. Now how do we get in there?

234 GWEN  
You don't. I do. Try not to drop it  
until I come back.

Gwen walks under the huge block of stone, supported only by Fourarms and Kevin's continuing effort. She takes a few steps, looks puzzled and reaches back to touch her shoulder.

## ON GWEN'S SHOULDER BLADE

Gwen finds a DART embedded in her shoulder. She pulls it out and looks at it, puzzled. She's drunk from the poison.

235                   GWEN  
                          (passing out)  
                         I think I've been...

Gwen passes out, and collapses, fully beneath the door that the guys are holding up.

236                   KEVIN  
                         Gwen!

237                   FOURARMS  
                         Gwen, wake up!

238                   KEVIN  
                         (straining)  
                         We've got to get her out from under here.

239                   FOURARMS  
                         (straining)  
                         And fast... I'm going to change back any minute. As a human--

240                   KEVIN  
                         (straining)  
                         I get it. We're all pulped.

241                   AGGREGOR (O.S.)  
                         It's a puzzle, all right.

fourarms and Kevin turn their heads to see Aggregor walk right up to the edge of the door and stop, smiling confidently.

242                   FOURARMS  
                         Aggregor!

243                   AGGREGOR  
                         Always a pleasure to see you, Tennyson. Particularly when you're doing my work for me.

244                   FOURARMS  
                         (straining)  
                         What are you talking about?

245                   AGGREGOR  
                         This temple is a dangerous place. So I thought I'd let you and your friends trigger the traps and lead me to the prize.

Aggregor walks between Fourarms and Kevin into the room.

246

AGGREGOR

I do appreciate you holding the door for me, Levin. And they say young Osmosians have no manners.

Aggregor disappears into the room and comes out a moment later, holding ONE-QUARTER OF THE MAP OF INFINITY. He carefully steps over Gwen.

247

AGGREGOR

She doesn't look well at all.

248

KEVIN

I swear, I'll--

249

AGGREGOR

Stand there holding that stone over your head until you can't any longer, then drop it, and kill your friends?

250

FOURARMS

This isn't over.

251

AGGREGOR

While it's always a pleasure defeating you again and again, I'm afraid this is the last time.

Aggregor walks away.

252

AGGREGOR

Goodbye, Ben Tennyson.

253

FOURARMS

(shouting)

Aggregor!

But he's gone.

Fourarms is engaged. He resetles his grip.

254

FOURARMS

<effort>

255

KEVIN

(concerned)

What are you doing?

Forearms pushes up hard, completely straightening his srms in a military press.

256                   FOURARMS  
<big effort>  
(straining)  
I'll hold it up. Go get Gwen!

257                   KEVIN  
You sure?

258                   FOURARMS  
(straining)  
No! Got a better idea?

258a                  FOURARMS  
<efforting>

Kevin lets go and the block drops four feet, as Fourarms is driven to his knees by the weight.

259                   FOURARMS  
<impact>

With a huge effort, Fourarms pushes, lifting it up a bit, but he's running out of gas.

260                   FOURARMS  
<effort> Hurry!

Kevin CRAWLS inside and DRAGS unconscious Gwen out, just in time, Fourarms steps out and the STONE BLOCK SLAMS DOWN.

261                   FOURARMS  
Back to the ship, let's go!

Kevin carries Gwen and Four Arms runs alongside. They reach the Room with the darts and stop short.

262                   KEVIN  
How do we get past the darts?

263                   FOURARMS  
I know a shortcut!

CUT TO:

EXT. NECROFRIGGIAN TEMPLE - TWILIGHT

The wall EXPLODES from inside. CANNONBOLT has bowled his way through.

Cannobolt uncurls, he's in front, Kevin carries Gwen, only steps behind. Cannonbolt looks at the Rustbucket, a speck, far away.

264 CANNONBOLT

Why do we always park so far away?

Cannobolt rolls up and heads down the path. Kevin is right behind.

EXT. RUSTBUCKET III - TWILIGHT

Cannobolt is only a few feet away from the ship when the Ultimatrix TIMES OUT.

265 CANNONBOLT

Aw, man!

He REVERTS to Ben mid-roll (he's dressed in his normal outfit, not the Plumber Suit). Ben's momentum sends him TUMBLING head over heels.

266 BEN

<multiple impacts>

Ben's momentum carries him until he slams into the door.

267 BEN

<impact>

Gasping for breath, he REACHES for the door control, but PASSES OUT before he can open it.

268 BEN

<GASPS for breath, then KEEP ALIVE>

Kevin's opens the door.

DISSOLVE TO:

INT. RUSTBUCKET COCKPIT - DAY

GWEN'S POV

Blackness gives way to the blurry, then clear faces of a relieved Kevin and Ben (who has the beginnings of a bad sunburn on the sunside of his face).

269 GWEN

What happened?

270 KEVIN  
You took a poison dart for the team.

271 GWEN  
Oh, yeah...

Kevin shows her the PLUMBER FIRST AID KIT.

272 KEVIN  
But the Plumber First Aid kit has a universal poison antiserum.

273 GWEN  
Okay. But why does Ben have a sunburn on half his face?

274 BEN  
I forgot my sunblock.

275 KEVIN  
Aggregor got the map. We lost.

276 BEN  
We didn't lose. We lived to fight another day. And Aggregor better watch his step, cause that day's coming soon.

FADE OUT.

THE END
